## Waxing Etiquette

Our highly trained therapists use the best quality Lycon wax to deliver a less painful and thorough waxing experience. We aim to put you at ease so that you get the best results from your waxing appointment. To help you feel comfortable we recommend you follow our waxing etiquette guidelines. If you have any questions please don't hesitate to ask.

### PRE WAXING

- Prior to your visit to the salon don't use any lotions or oils on the areas you are having waxed. Any products will hinder the wax from sticking to the skin.
- Please shower or bath before your appointment.
- If your hair is longer than a quarter inch, please make sure you trim the hair with scissors or clippers. This will make your waxing experience less painful.
- Wear loose clothing, avoid strenuous exercise, direct sunlight or perfumed products and soaps for 24 hours after waxing.

### DURING

- We recommend you remove your underwear, if you are not comfortable with this we will provide you with a paper pair, which can be disposed of after.

- If you choose to wear your own underwear we can't accept responsibility for spillage of oil or wax on your under garment.
- You will have a towel to cover yourself.
- The therapist may ask you to help keep the skin taut around the area being waxed for a more thorough and less painful experience.
- Sometimes male clients may become aroused during waxing, however, please don't feel embarrassed, your therapist will remain professional and continue waxing.
- The welfare of our therapists are important, therefore we won't accept any inappropriate behaviour, you may be asked to leave and incur the cost of the treatment.

### POST

- Schedule your next appointment for 3 to 4 weeks time; waxing is far less painful if you wax consistently and regularly.
- We recommend you use Lycon after care products or Pevonia Body Preserve moisturiser, Silky Body Scrub and Dry Oil Moisturiser for best results. Please ask your therapist for advice on the best product for your skin.
